Volkswagen Touareg

Confident, eye-catching and striking, the Golf 8 is a truly modern hatchback: unmistakably Golf, but with innovative twists. The exterior has evolved to include a leaner front grille and narrow LED headlights for a clean, contemporary look, with an imposing bumper that sits lower to the ground for a more dynamic look and responsive performance. Inside, the focus is on design, function, comfort and personal choice, with technology that's nothing short of revolutionary.

The Golf is the most successful European car for more than four decades. A new chapter in the history of this best-seller begins with the eighth Golf generation – digitalised, connected, and intuitive to operate. Never before has a Golf been so progressive. Its digital interior enables a new dimension of intuitive operation.
