

# The Touareg

Simply Exceptional

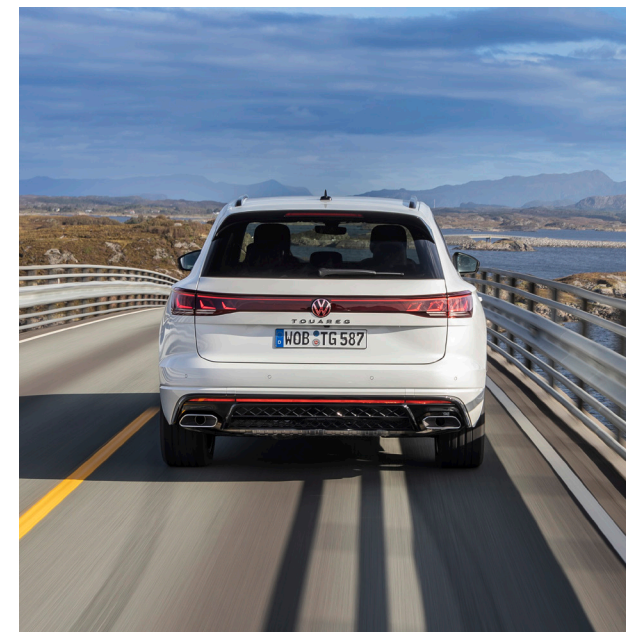

## Confident Appearance

The new Touareg is an SUV that meets high expectations and proves this too with a striking and sophisticated design. The wonderfully expressive front section with prominent air intakes and the powerful rear accentuates the sporty presence of the Touareg. Its balanced proportions emphasize its elegance as well as its size, which makes it a comfortable companion on the road.

# Distinctive Design

The new Touareg has a red illuminated Volkswagen logo. This is integrated into the new horizontal LED strip of the taillight clusters. This produces unique graphics both during the day and at night.

# Innovision Cockpit

The 12" digital instrument cluster and the 15" screen of the infotainment system form one curved glass surface: the Innovision Cockpit. Operated by touch or gestures, it displays functions in graphics and animations. Home screen content can be customized and buttons can be programmed freely for favorites and shortcuts.

## Expand your Horizons

The electric panoramic tilt/sliding roof is a real eye-catcher. With its generous glass surface, it offers more brightness and passengers a clear view of the sky. Its electric sun blind protects against excessive sunlight. Do you want to enjoy fresh air? If desired, the front half of the roof can be raised or moved completely backwards

# Premium Lighting

The HD matrix headlight not only provides better visibility at night but also supports you when driving. More than 19,000 individually controllable LEDs are used for each headlight. This enables your Volkswagen to project markings onto the road, for example, when the high beam is switched on. The HD matrix headlight has a special light animation ready for you.

# Unparalleled Comfort

The new Touareg with its intelligent automatic air suspension. Imagine a ride so smooth, it feels like you're gliding on air, effortlessly absorbing every bump and dip in the road. Whether you're navigating city streets or exploring off the beaten path, the Touareg adapts to provide the perfect balance of comfort and control. It's not just a drive; it's a serene and luxurious journey, making every mile a pleasure.

# Get in and leave everyday life behind

As soon as you sit inside the Touareg, it's plain to see: the stylish interior design says it all. An elegant double seam runs from the dashboard across to the door sill and the high-quality, harmoniously coordinated materials ensure a feel-good atmosphere straight away.

The background lighting is available optionally starting with the Elegance equipment line with 30 different colours.

The lower and upper area of the interior can thus be illuminated in different colours independently of each other. If two different colours are selected, the main colour is adopted additionally for the displays. You can therefore create completely different lighting scenarios depending on your mood.

The new Touareg is transformed into a mobile concert hall with the optionally available DYNAUDIO Consequence sound system:

Engine,Gearbox	Capacity L / cc	2.0L TFSI Engine
	Max output, KW(bhp)/RPM	185KW (250)/(5000-6000)
